

A new dimension of comfort, designed to be seen.

The journey matters as much as the destination, which is why we've redefined the rear seat into an experience of comfort and luxury. Introducing the new Rear Seat Entertainment System.

Features:

- **33.78 cm Full HD Touchscreen (1920 x 1200)**
Cinema-quality visuals with a responsive multi-touch interface.
- **Android 13 Operating System**
Octa-core 64-bit processor with 4 GB RAM and 64 GB storage for smooth app performance and media playback.
- **Multi-connectivity**
Native USB, HDMI, SD card slots, and Bluetooth 5.0 for easy media input and device pairing.
- **Wireless Screen Mirroring**
Compatible with Apple AirPlay, Android Cast and Miracast so passengers can mirror phones and tablets wirelessly.
- **Dual-screen Functionality**
Each headrest screen plays independent content, or syncs for shared viewing.
- **Built-in Stereo Speakers & Multiple Audio Outputs**
Internal stereo speakers plus Bluetooth, FM-modulator and IR/headphone support for private listening.
- **Ambient Tab Lighting**
16-colour ambient modes (solid, gradient, or hopping) controllable from the RSES UI to set cabin mood.
- **Seamless Vehicle Integration**
Syncs with vehicle infotainment via Bluetooth/FM; supports MBUX pairing, seat-side controls and optional remote control.
- **Mercedes-Benz Approved & Aftermarket Compatible**
Tested for performance and safety, approved for E-Class, GLC and C-Class; includes a 1-year product warranty.

Benefits at a Glance

- First-class entertainment for rear-seat passengers.
- Dual screens let each passenger choose their own content.
- Simple connectivity lets passengers stream or plug in without involving the driver.
- Parental controls and private audio options keep family journeys calm.
- OTA updates and app integration ensure the system stays up to date.
