

Mercedes-AMG G 63

Stronger Than Time.

AMG
DRIVING PERFORMANCE

Stronger than time.

Some time ago, a group of engineers in Stuttgart and Graz developed an all-new genetic code: the DNA of a cross-country vehicle – iconic, robust and almost indestructible. They constructed parts whose functions even now fulfil their purpose in the same way. Components which, over generations, have combined to form a unique character. They created a design which eschewed short-lived trends and thought nothing of fancy gimmickry. A timeless vehicle which, over time, was to become a legend – stronger than time.

G for Graz.

The development of a legend is not simply a job. It's a calling. For almost more than 40 years, our employees have identified with the G-Class. And for almost more than 40 years, they have done this with unerring precision and passion. It fills them with pride that each and every G-Class first sees the light of day at the factory in Graz. At the same time, there is a responsibility which our team gladly assumes day after day. This is the only way to fill the legend of the G with life.

From prototype to phenomenon.

It started with a vision: how do you build the perfect cross-country vehicle? What followed were numerous development steps charged with passion and devotion, characterised by a love of detail and a degree of care that can be felt in each G to this day. All combined with the desire to experience the joy we feel in building the G-Class again on every subsequent journey in it. Be it on the off-road trails of the Earth or the world's most splendid boulevards.

MERCEDES-BENZ
G
SCHÖCKL PROVED

Some things never change.

The unique DNA of the G-Class was created more than 40 years ago. Iconic features which, now as then, perform specific functions and lend the G-Class its unique appearance. They can also be found in or on the new G-Class: the distinctive door handles and the characteristic closing noise, the robust exterior protective strip, the exposed spare wheel on the tailgate, the striking turn indicators, and the grab handle for the front passenger which is so indispensable when negotiating off-road terrain. These exceptional details combine with the chiselled silhouette to lend the off-roader its unique look. They are what makes every G-Class a G-Class.

*Please read the disclaimer.

Rolling milestones.

The evolution of a legend.

1979

A legend is born: the “G” in the model designations for the 460 series is derived from the first letter of the German word “Geländewagen”, which means “cross-country vehicle” or “off-roader”, but it could just as well stand for Graz as this is where the G-Class has been produced by hand since the beginning. It was based on a solid ladder frame with coil-spring rigid axles and at launch offered a choice of four engines, two wheelbase lengths, and five body variants. The model line-up ranged from the 240 GD to the 300 GD and from the 230 G to the 280 GE with outputs between 53 kW (72 hp) and 115 kW (156 hp).

1980

Our very own popemobile: to mark the visit of Pope John Paul II to Germany in November 1980, Mercedes-Benz developed a unique “popemobile” based on the 230 G cross-country vehicle. It featured a large plexiglass dome to afford all the faithful a great view of the pontiff. In 2007, Pope Benedict XVI appeared in a G 500 painted in mystic white during his Wednesday audiences at St. Peter’s Square. The open body and the folding windscreen allowed close contact between pilgrims and pontiff.

1983

The winning gene in action: in their 280 GE – the top-of-the range cross-country vehicle of the time – rally drivers Jacky Ickx and Claude Brasseur defied the treacherous desert sand of the Sahara and all their competitors in the race to win the passenger-car classification in the legendary Paris-Dakar desert rally. For the gruelling long-distance rally, the body of the 280 GE was optimised in the wind tunnel and also equipped with selected aluminium components to make it lighter than the standard-production model.

1989

Happy birthday: by the time of its tenth birthday, the off-roader had met customer demands for enhanced comfort and luxurious appointments. In the thoroughly revised 463 series, the G now featured a refined interior, more comfort-oriented suspension, and permanent all-wheel drive, all of which greatly enhanced on-road handling. In the Cabriolet version, too.

1999

A strong connection: in 1999, Mercedes-Benz fused two unique strands of DNA which were actually natural bedfellows anyway – the G-Class and AMG. Since then the AMG versions of the cross-country vehicle have been winning more and more fans. So much so that they are now the most popular of the G versions. The G 55 AMG, the first G model in AMG guise, had a V8 naturally aspirated engine with an output of 260 kW (354 hp). In 2004, this first exclusive AMG model was followed by an uprated variant with a supercharged engine.

2012

The family tree grows: the G-Class received an all-new interior following an extensive facelift. The dashboard and the fully revised centre console marked a turning point in the interior design, with the focus now more firmly on ergonomics. There were also a few obvious exterior changes, although these didn't alter the character of the G-Class: new exterior mirrors and the LED daytime running lamps, for instance, enhanced road safety and made the G an ultra-modern legend.

2013

New addition to the G-Class family: an exceptional model was added to the line-up. The G 63 AMG 6x6 made the G-Class king of the desert. It marked the start of a series of spectacular G-Class special models such as the G 500 4x4² and the Mercedes-Maybach G 650 Landaulet. All of these models added further unique facets to the G-Class range and continually enhanced the fascination of the off-road legend.

2018

The evolution continues: longer, faster, wider. The new G-Class offers tangible improvements across the board. The new space concept coupled with the angular, elegant interior design enhances ride comfort considerably. The suspension, new to the G, lends the evergreen a vastly superior driving feel on the road. In off-road terrain, on the other hand, the new G-Class impresses with effortlessly superior handling on any surface. As ever, the exterior alone impresses with its characteristic design. Inside, however, there is a whole new world waiting to be discovered.

Passion grows when it is shared: the AMG Private Lounge is our community focused around the world of AMG. This is where AMG customers meet at first-class events and on the online platform exchange views about the latest developments from Affalterbach. They benefit from special offers and from direct connection with the AMG headquarters: **www.mercedes-amg.com/privatelounge/welcome**

The AMG Driving Academy stands for an incomparable team spirit: experience performance with like-minded drivers and improve your driving skills on racetrack and lifestyle events held at breathtaking locations around the world. Become a part of the “World’s Fastest Family”: **www.mercedes-amg.com/driving-academy**

Want even more? Mercedes-AMG Motorsport offers the ideal platform for professional motorsport with the Customer Racing Program – and with the Mercedes-AMG GT3 race car developed specifically for the purpose. A fully integrated service package delivers top-level racing: **www.mercedes-amg.com/customerracing**

At the AMG Performance Studio, we build automobiles tailor-made to your wishes. The creativity of our experts knows no bounds – from special technical components, through extravagant paint finishes to exclusive interior appointments, this is where one-offs are fashioned, to the very highest standards of handmade craftsmanship.

Enter the world of AMG. Experience Driving Performance.

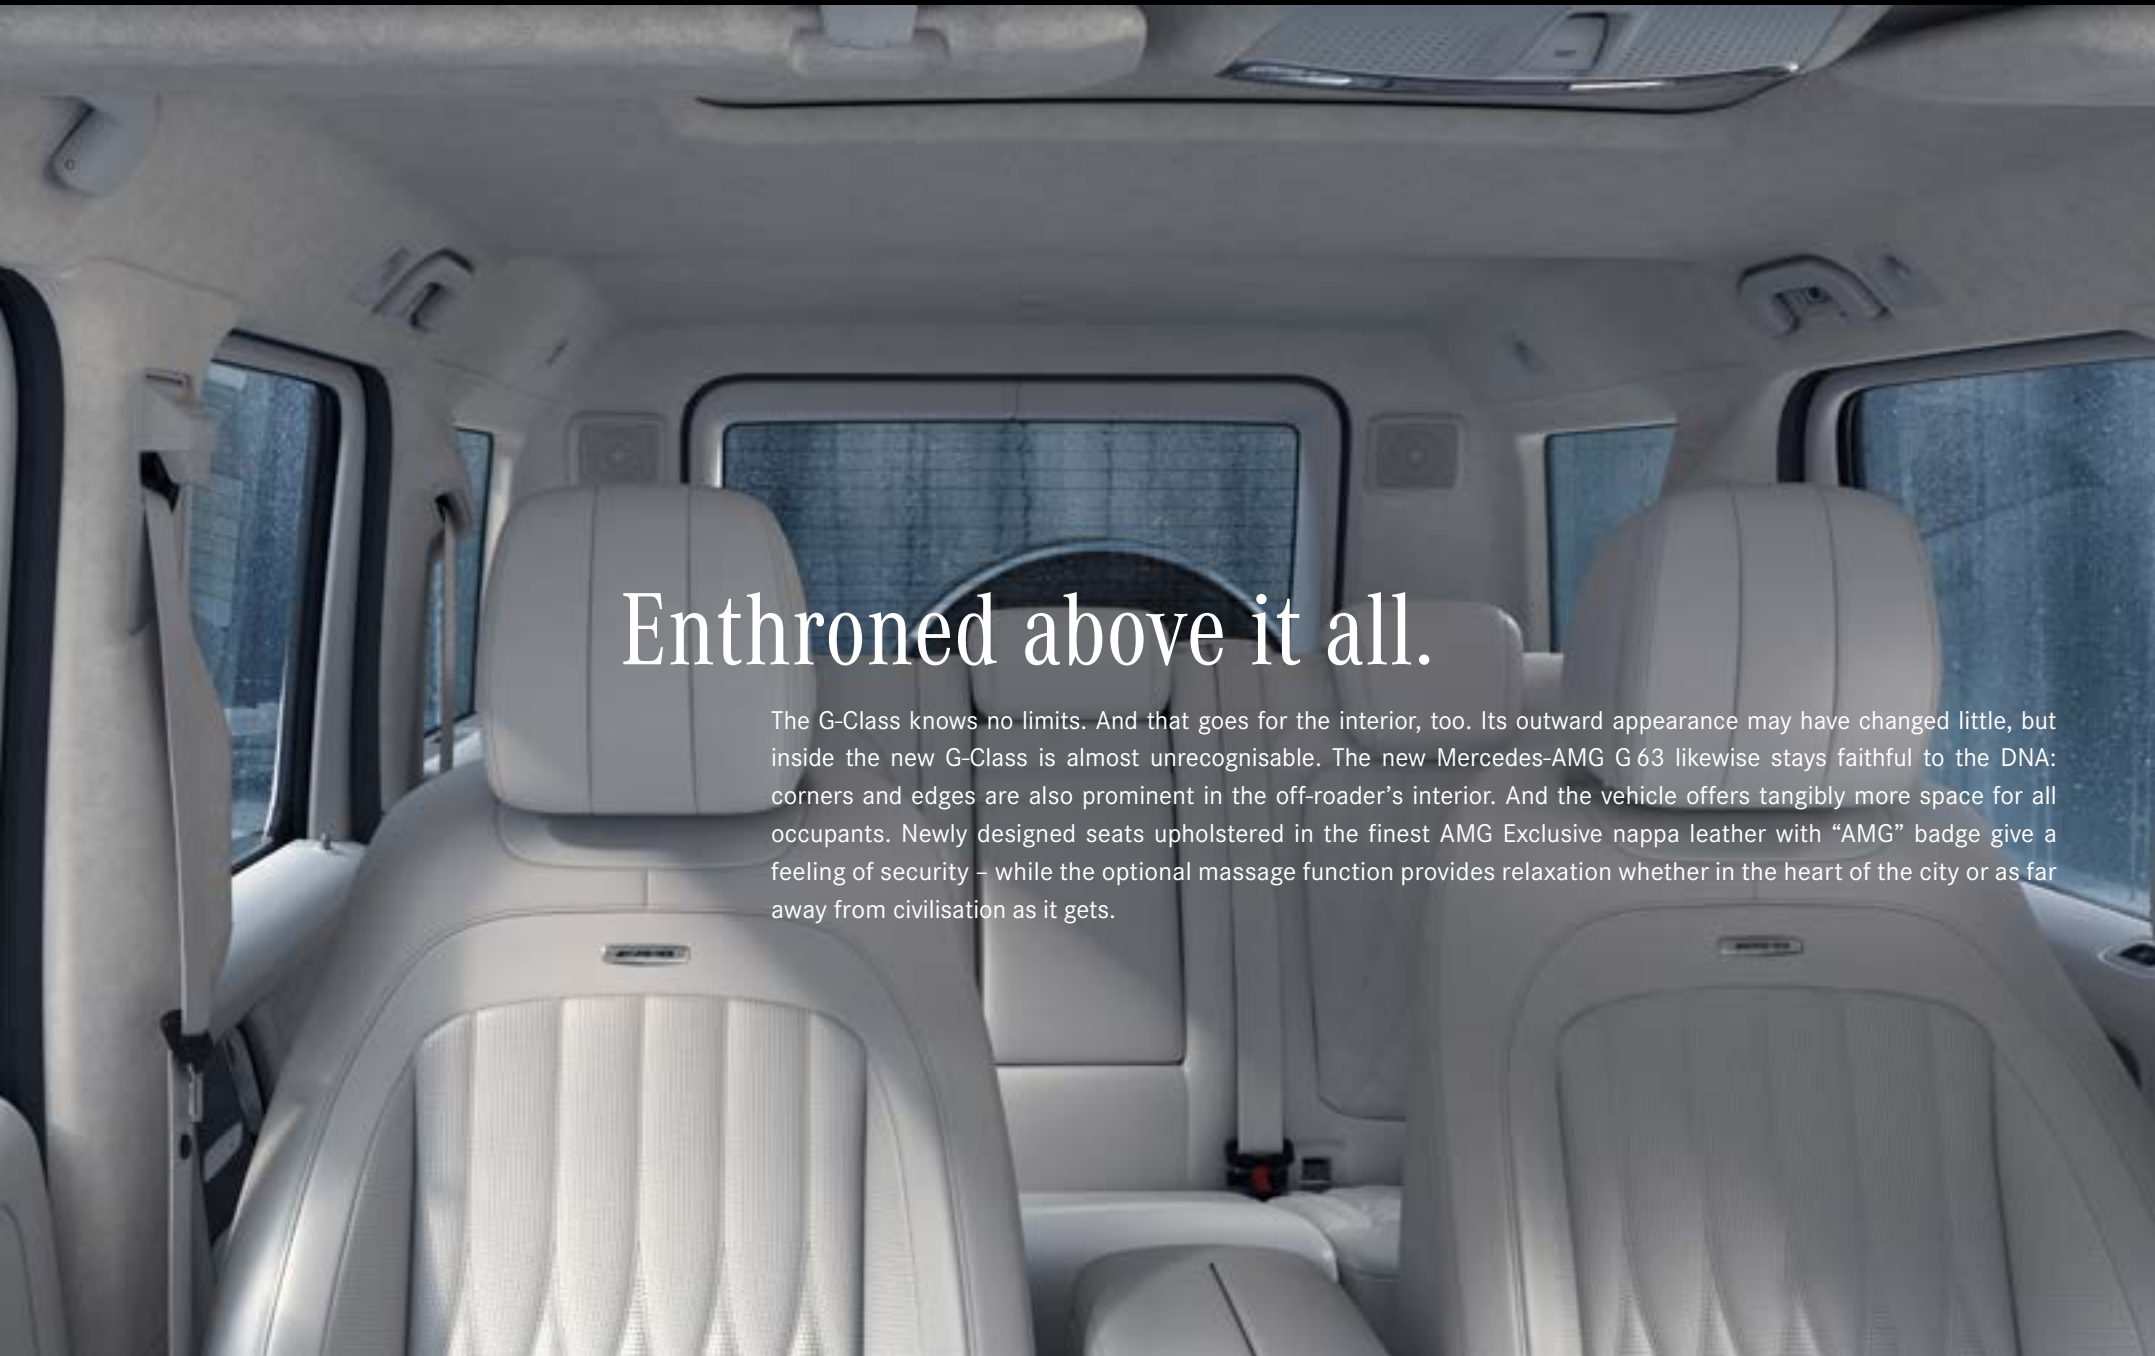

We don’t just build cars.
We make dreams come true.

Stronger than time.

Big Bang in the city.

The road seems to be melting. Or is it the shiny film of the water fountain? It's all the same to the new Mercedes-AMG G 63. With its impressive and expressive exterior design. A look that leaves no doubt as to who's in charge. The AMG-specific radiator trim, the optionally available 55.9 cm (22-inch) wheels and the striking side-exiting AMG performance exhaust system lend the icon its extrovert exterior. The Mercedes-AMG G 63 makes no distinction between lava and asphalt. Delivering performance at the limit every time. It has always been without equal off the road. But the off-road giant also impresses in the city thanks to its effortlessly superior handling, making it a king away from the wild, too – in the urban jungle.

Enthroned above it all.

The G-Class knows no limits. And that goes for the interior, too. Its outward appearance may have changed little, but inside the new G-Class is almost unrecognisable. The new Mercedes-AMG G 63 likewise stays faithful to the DNA: corners and edges are also prominent in the off-roader's interior. And the vehicle offers tangibly more space for all occupants. Newly designed seats upholstered in the finest AMG Exclusive nappa leather with "AMG" badge give a feeling of security – while the optional massage function provides relaxation whether in the heart of the city or as far away from civilisation as it gets.

Extraordinary appearance.

A giant slips smoothly through the urban canyons. For all its power, the new G-Class also delivers vastly improved ride comfort on the road. The effortless superiority with which the off-roader moves through the city draws admiring glances as if by magic. The same thing happens at night: see and be seen. For this, the new G-Class features innovative lighting technology. The new MULTIBEAM headlamps create a pleasant sensation of light which is similar to daylight and in tune with the way we see things – for more relaxed driving in the dark. All with a breathtaking design that makes the new G-Class really catch the eye.

Hi, way.

A muffled rumble announces its arrival. The ground starts to shake. The air begins to vibrate. Then the G-Class turns the corner. Miles of highway opening up before it. It accelerates and starts to really shift. Unfamiliar terrain? On the contrary. Those who think the new G-Class is only in its element off the road couldn't be more wrong. On the road, it soon becomes clear that the off-roader knows no compromise. Thanks to the newly developed AMG RIDE CONTROL suspension and the speed-sensitive sports steering, the new Mercedes-AMG G 63 delivers outstanding on-road performance. When on the move, dynamism and comfort scale new heights and take the driving enjoyment to levels with which G-Class off-road drivers have long been familiar.

Security and thunder.

The G-Class combines opposites. Two hearts beat at its core. One wild, one mild. Here luxury meets adventure, and ruggedness is paired with protection. In the interior of the new Mercedes-AMG G 63, high-quality materials and high-class appeal lift the atmosphere to a new level and convey a feeling of absolute security. A sporty AMG performance steering wheel makes the dynamism of the new Mercedes-AMG G 63 tangible in every movement. The new COMAND Online assists the driver with additional functions which make every trip so much easier. Ambient lighting bathes the interior in one of 8 selectable light moods while the Burmester® surround sound system treats the occupants to an intense listening experience of the highest quality.

The epicentre of strength.

Filigree technology meets monumental sound. The new Mercedes-AMG G 63 with AMG 4.0-litre V8 biturbo engine, an output of 430 kW (585 hp), and a peak torque of 850 Nm makes every trip an intense experience. Both for the occupants and for those at the side of the road. The adjustable AMG performance exhaust system makes the air vibrate and allows the driver to choose their own sound: from understated for long-distance cruising to highly emotive for rapid bursts of speed. AMG RIDE CONTROL lets the driver adjust the suspension at the push of a button, enabling the new Mercedes-AMG G 63 to adapt to the current on or off-road terrain as well as to individual driver requirements.

Enhanced agility and traction with AMG Performance 4MATIC all-wheel drive. It features rear-biased torque distribution with ratio of 40:60 (front/rear)

A special acoustic experience comes courtesy of the selectable AMG Performance exhaust system. The variably adjustable exhaust flaps give you the option to change the sound of the vehicle at the press of a button.

Backbone.

Stamina means everything in tough terrain. Here there's no room for buckling or retreating. Here it's all about character. And strength of character shines through in the vehicle's backbone. In the case of the G-Class, this has always been the exceptionally robust ladder frame. Made from sheet steel up to 3.4 mm thick, the ladder frame is much more suitable for tough off-road use than a self-supporting body. In addition to this, the decoupling of the noise from the suspension and the road reduces the interior noise level and thus enhances the ride comfort.

Full concentration ahead.

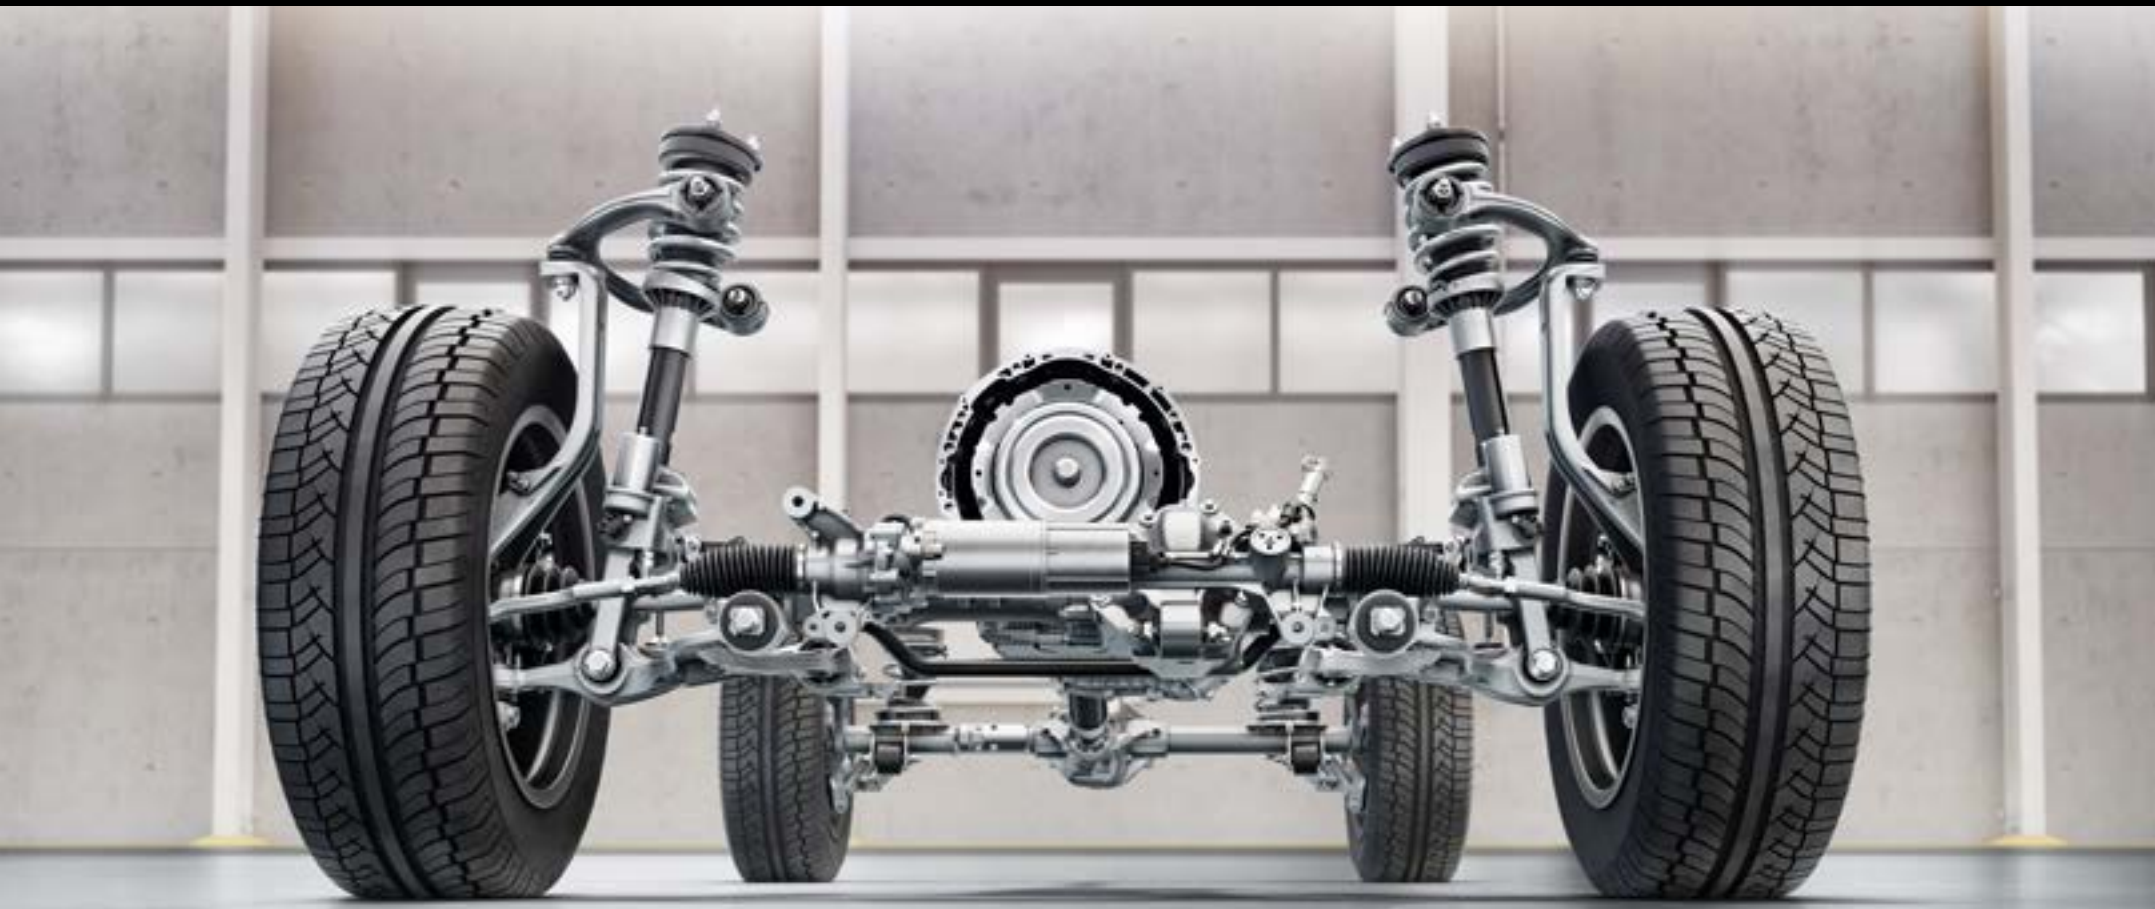

Powerful though the new G-Class is, it only ever uses its enormous power where it is needed: when negotiating off-road terrain, for example, there may only be one wheel which has traction. In this case, the three locks on the centre, rear-axle and front-axle differential ensure that the drive torque is directed to precisely where it is required. Power paired with efficiency – the right way to get ahead.

Overcomes obstacles at the push of a button.

Even the toughest of conditions pose little problem to the new G-Class. The low-range gearbox adjusts the shift ranges of the AMG SPEEDSHIFT TCT 9G Transmission to driving in off-road terrain and on uphill gradients. Pressing the LOW RANGE button in the centre console increases the torque at the wheels. As a result, negotiating very difficult off-road terrain, moving off on extreme uphill gradients as well as driving downhill are all possible with significantly enhanced braking performance.

*Please read the disclaimer.

More statics for more dynamics.

Trust is good, control is better. The new axle architecture ensures that this is the case. Demanding terrain calls for high ground clearance and outstanding traction. Both are assured thanks to the precise independent front suspension and the robustness of the rigid axle at the rear. This design enables the permanent all-wheel drive to deliver its full power and manoeuvre the G through the terrain with purpose. With its high links, the new independent suspension provides maximum ground clearance. On the road, too, the new axle architecture delivers tangibly enhanced performance, making the new G-Class an impressive proposition with its better controllability and more precise wheel location. Furthermore, the off-roader is lighter, which further improves its handling.

As imperious on the road as it is off it.

AMG SPEEDSHIFT TCT 9G transmission – from extremely sporty to efficient and comfortable
With 9 gears, drive program-specific drive settings and a manual mode as well as double-declutching function, this transmission allows emotive and dynamic acceleration. Maximum agility is ensured by extremely short shift and reaction times. Gear changes are performed with no interruption in tractive power. Ultra-fast, responsive multiple downshifts are another forte of the AMG SPEEDSHIFT TCT 9G transmission.

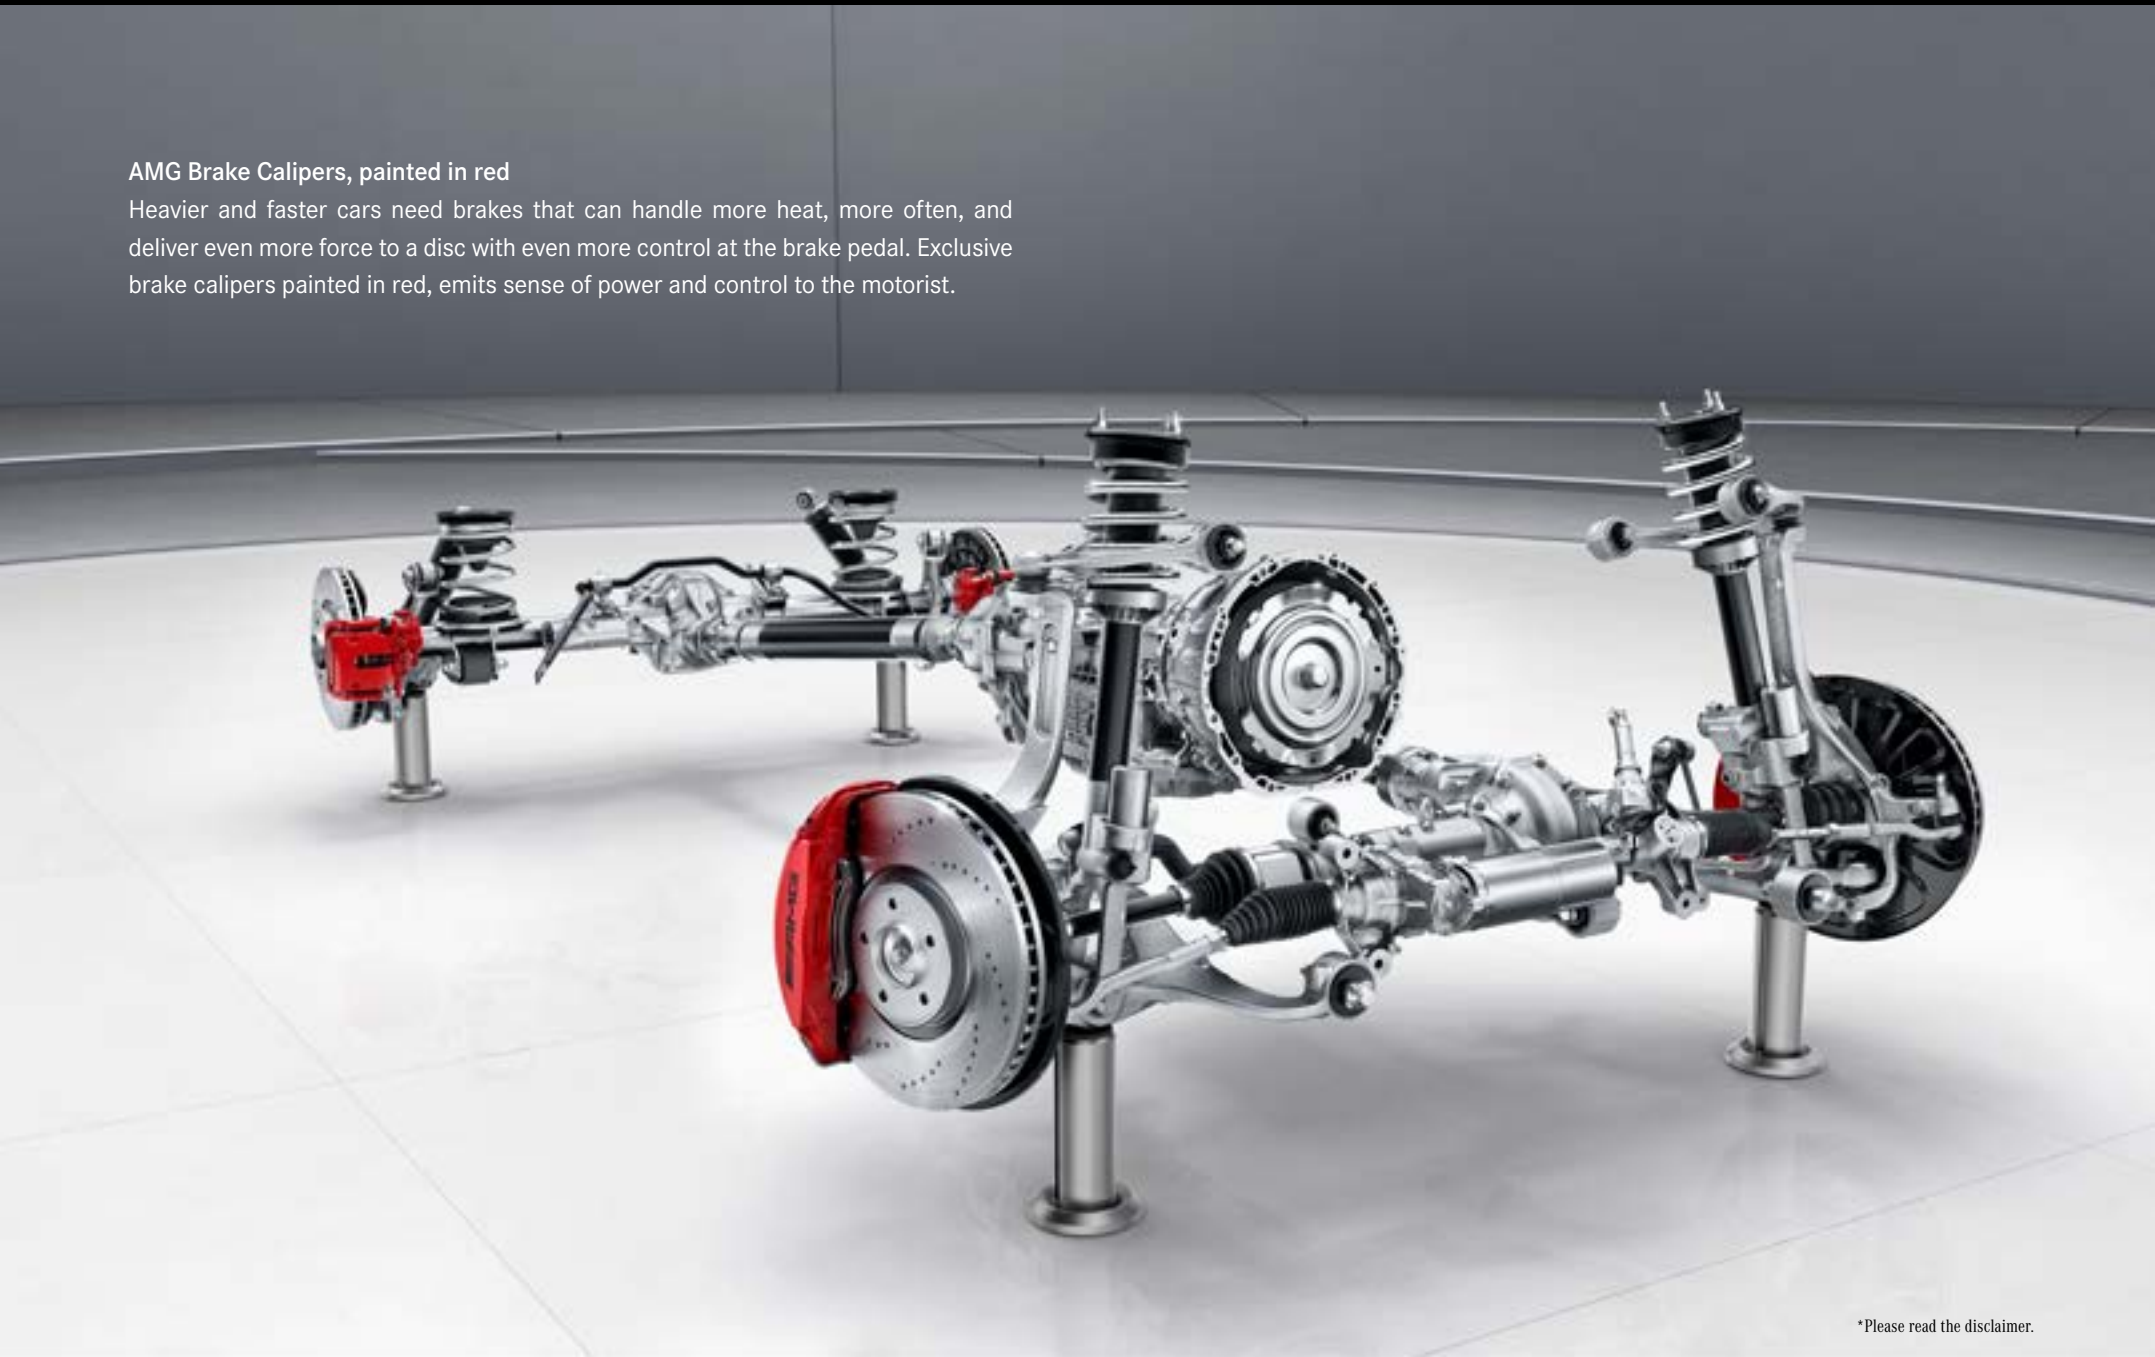

The automatic double-declutching function is active in drive programs "S", "S+" and "M". Each manual or automatic downshift is accompanied by a precisely metered blip on the throttle - with rising intensity from "S" to "S+" and "M". Drive program "C" (Comfort) is configured for the lowest possible engine speeds and effective gear changes into the most fuel-efficient gear for every driving situation.

The drive programs "Trail", "Sand" and "Rock" are designed for optimum off-road capability and/or ideal tractions. Sleek gear shifting throttles the driving power to suit the terrain and speed.

AMG Brake Calipers, painted in red

Heavier and faster cars need brakes that can handle more heat, more often, and deliver even more force to a disc with even more control at the brake pedal. Exclusive brake calipers painted in red, emits sense of power and control to the motorist.

Standard Equipment

MULTIBEAM LED – trend-setting lighting technology

MULTIBEAM LED enables quick, precise adjustment of the driving lights to the current road and traffic conditions. The light can be switched on where it is required via 84 individually controllable LEDs. A total of four control units calculate the ideal light pattern 100 times per second using information provided by a camera positioned behind the windscreen. The innovative technology extends and perfects the familiar functions of the Intelligent Light System. In high-beam mode, Adaptive Highbeam Assist Plus enables continuous long-range illumination of the carriageway ahead without causing dazzle. When there are oncoming vehicles or vehicles in front, the LEDs of the high-beam modules are partially switched off, each creating a U-shaped, recessed light pattern. The other areas of the carriageway continue to be illuminated with the main beam (partial main beam). When the system detects motorway conditions, an optimised high beam pattern is selected accordingly. Depending on the road and traffic conditions, partial motorway high beam is activated to avoid dazzling other road users by using a specific light pattern.

AMG Performance steering wheel in nappa leather

The AMG Performance steering wheel in nappa leather combines extremely sporty design, easy grip with heavily contoured rim and intuitive operation.

3-spoke design, with flattened bottom section, perforated in the grip area, steering wheel trim in electroplated silver chrome with integral AMG logo.

The steering wheel shift paddles allow manual gear changes and support a sporty driving style.

Integral Touch Control buttons make for excellent operating ergonomics, inputs are accompanied by acoustic feedback.

The Touch Control button on the left-hand side controls the instrument cluster with horizontal and vertical swiping movements of the finger, it also operates the cruise control and limiter as well as Active Distance Assist DISTRONIC.

The Touch Control button on the right-hand side adjusts the loudness, track selection and other functions of the multimedia system.

EXCLUSIVE Line interior.

With the EXCLUSIVE line interior you are reinforcing the feel-good atmosphere in the interior of your G-Class. Feel the sleek finish of the upholstery in nappa leather and enjoy the sound of the Burmester® surround sound system. Optionally, exclusive G manufaktur upholstery and equipment also express your individuality.

Seat covers in nappa leather with perforations

The following upholstery is available at no extra charge:
Black
Classic red / black
Macchiato beige / black
Tartufo brown / black

Burmester® Surround Sound System

Sunroof

Indoor air ionization

The following interior elements are in nappa leather:
Upper door center panels
Armrests in the door
Armrest in the center console

Upper part of the instrument panel in leather with extended decorative seams

Inside of the tailgate covered with man-made leather in the respective equipment color

*Please read the disclaimer.

Roof lining microfiber DINAMICA black

Sun visors microfiber DINAMICA black

Air nozzles in silver chrome

Driver's side power window control panel in silver chrome

Windows on the passenger side and rear in silver chrome

AMG specific seat pattern

AMG badges in the front seat backrests

ADDITIONAL SCOPES:

Decorative panel with "G manufaktur" lettering on the grab handle for the front passenger

colour-coordinated contrasting topstitching for the seats, door center panels, inside of the tailgate and instrument panel

Floor mats in black with contrasting topstitching to match the color of the equipment

*Please read the disclaimer.

Active Multicontour Seat Package Plus

- Active multi-contour seats at the front with separately adjustable air chambers
- ENERGIZING comfort control
  Ventilation of the interior and strong air flow (air pulsation) by THERMOTRONIC
  6 selectable ENERGIZING programs for revitalization or relaxation
- 4-way lumbar support with adjustable air chambers
- Driving dynamics function with automatic cornering depending on the steering angle, lateral acceleration and vehicle speed
- 14 air chambers allow ENERGIZING massage function with 8 different programs
- 2 of the massage programs with additional heat effect
- Seat heating and seat climate control for driver and front passenger

*Please read the disclaimer.

Glass sliding sunroof – more air, more light

The electric sliding sunroof provides pleasant, draught-free air circulation in the passenger compartment. As it is made of glass, the sunroof also gives the interior of the vehicle a brighter feel. A movable headlining affords protection against the sun. If the system detects rain or extreme temperatures, the open roof automatically moves to the tilt position to prevent water from entering the passenger compartment. With the vehicle parked, the sliding sunroof can still be opened and closed from outside. The electronic vehicle key can be used to activate the "convenience closing" and "summer opening" functions by pressing and holding down the relevant buttons. If the vehicle has heated up in strong sunshine, this function conveniently allows the driver to ventilate the interior before getting in. To prevent a hand, for example, from becoming trapped, the sliding sunroof is equipped with an obstruction sensor. If the system detects an obstruction, it automatically stops the roof closing and moves it back a little.

Rear mud flaps

With the mud flaps you can protect your vehicle against scratches and stone damage. Traffic following behind can also be saved from damage. The flaps are made of high-quality, UV-resistant material which is very durable. The overall appearance of your vehicle is maintained since they blend seamlessly into the exterior design.

*Please read the disclaimer.

Connects you from A to B.

The new G-Class does not just connect you to the world. It is also connected to the world itself. Thanks to **COMAND Online**, there is practically nothing left to be desired where infotainment, navigation and communications are two 12.3-inch screens for the instrument display and media display are comprised beneath a continuous glass screen.

- Fast hard disc navigation
- 3D display with topographic map display as well as photorealistic 3D buildings and 3D map rotation, display of satellite images
- Bluetooth® interface with hands-free function, text message reading function and also audio streaming for music transfer
- 2 USB 2.0 ports in the stowage compartment beneath the armrest on the centre console
- SDHC card slot in the stowage compartment beneath the armrest on the centre console, ability to read mixed tracks, i.e. video and audio files are recognised, video preview in a small animated area, can be enlarged to full screen
- Media interface
- Smartphone Integration

Burmester® Surround Sound System

Experience more performance and exclusivity with the legendary Burmester sound. The high-performance speakers develop first-class surround sound. You can specifically optimise this for the front and rear seats to intensify the listening experience. The basis for this is the 10-channel DSP amplifier, the output power of which is perfectly matched to the speaker system. Sophisticated noise compensation (VNC) adjusts music and sound dynamically to your driving conditions so as to provide you with the best possible level of music enjoyment at all times – whether you are driving on the motorway or in the city. Concentrate the listening experience in a location of your choosing with the Sound Focus function.

A phenomenal listening experience that can also be seen: with the high-quality design of the speakers and the characteristically designed covers in metal including Burmester® lettering, the vehicle takes on a particularly classy look and enables you to show that you are a music lover and aficionado.

- 15 high-performance speakers precisely tailored to the vehicle interior to ensure well-balanced and dynamic music reproduction
- A total output power of 590 W (7 x 50 watts and 2 x 120 watts) for maximum sound quality with high volume reserves
- Multichannel support for true surround sound

*Please read the disclaimer.

Park like a compact car.

When driving off-road, the new G-Class parks where it wants. In the city, there are two optional equipment packages which can assist with parking. The Parking package with 360° camera, meanwhile, allows parking and manoeuvring with a realistic all-round view provided by four networked cameras and even gets the new G-Class into tight spaces with ease. A separate off-road view shows the immediate surroundings ahead of the vehicle – a big help when driving in poorly visible terrain.

*Please read the disclaimer.

First-class entertainment, in the second row too.

The preinstallation for the Rear Seat Entertainment System allows you to easily connect a variety of equipment and accessory products. The system attaches to the backrests of the front seats and features an integral power supply – for undisturbed entertainment on longer journeys.

*Please read the disclaimer.

The crowning glory of our creation. The new Mercedes-AMG G 63.

The new Mercedes-AMG G 63 does not tolerate rivals. Driven by the powerful AMG 4.0-litre V8 biturbo engine, the new Mercedes-AMG G 63 solicits full attention. The AMG-specific radiator trim and the flared wheel arches exude power.

EXTERIOR HIGHLIGHTS

- 53.3 cm (21-inch) AMG 5-twin-spoke light-alloy wheels, painted in titanium grey with a high-sheen finish (RG2)
- AMG design, consisting of AMG front apron with black cooling air intakes, AMG-specific radiator trim, AMG-specific trim on the front and rear aprons, flared wheel arches painted in the body colour, and exterior protective strip with trim insert in black with “AMG” lettering
- AMG performance exhaust system with two chrome-plated twin tailpipe trim elements on each side
- AMG brake callipers, painted in red
- Metallic paintwork
- Stainless Steel package
- MULTIBEAM LED headlamps as well as LED tail lights and turn indicators
- “V8 BITURBO” lettering on the side

INTERIOR HIGHLIGHTS

- Upholstery in AMG nappa leather
- AMG performance steering wheel in black nappa leather
- Trim in Metal weave design
- Exclusive interior
- AMG illuminated door sills in stainless steel
- Widescreen cockpit
- Burmester® Surround Sound system
- Ambient lighting with 64 colours
- THERMOTRONIC automatic climate control with 3 climate zones

Mercedes me connect

The communications module (LTE) offers you a definite advantage in terms of convenience and safety. It provides your vehicle with a connection to the internet – allowing you to make use of helpful services from Mercedes me connect. Two mobile phone antennas and an LTE-compatible SIM card ensure a fast connection.

Live Traffic Information:
Arrive at your destination stress-free by the best route – whether in the rush hour or on a trip. With Live Traffic Information, your navigation system receives traffic data in real time for optimised dynamic route guidance. Accurate up-to-the-minute information on traffic jams, stop-and-go traffic and more helps you to reduce your journey time

Let your personal digital assistant take the experience to an all new level in your everyday life.

- ✓ Stay informed. About your Mercedes-Benz and everything associated with it. Tyre pressure: okay! Fuel tank: nearly full!
- ✓ Off to new places: You can directly send any type of destinations to your vehicle from your smartphone.
- ✓ Relax on the road. Calmly complete your first conference call during your journey as the navigation system plots the ideal route to your next meeting.

All-in-one service package: Get reminders and never miss a service appointment, conveniently book your service appointment online.

Please note that certain services are offered free of cost for a period of three (03) years and may be chargeable at the expiry of three (03) years from the date of activation of such services. If you wish to continue using those services, you may renew the same through Mercedes Me Store (as and when it is available). Please get in touch with your preferred Franchise Partner for more details.

Mercedes-Benz emergency call

With the Mercedes-Benz emergency call system, if an accident is detected, a communications module with its own SIM card automatically triggers an emergency call for assistance. Alternatively, a call can be triggered manually to organise assistance.

Preinstallation for Navigation Services

Display: View up-to-the-minute information on the map in a wealth of detail. At a glance, you can see petrol stations with price information, parking facilities with the number of available spaces, weather symbols with up-to-the-minute temperatures and lots more additional information

Local Search: With the "Local Search" service, you can search freely for any desired locations or addresses. Enter the search term via the Controller or simply make use of voice entry. After a brief confirmation, you can navigate direct to your desired destination.

*Please read the disclaimer.

Safety : Always one situation ahead.

With Intelligent Drive, Mercedes-Benz has reached an important milestone on the road to autonomous driving. Numerous intelligent assistance systems take a lot of the strain off the driver and thus enhance safety significantly for all road users. Away from off-road terrain, **Active Lane Keeping Assist** can detect when the car leaves its lane unintentionally, warn the driver by making the steering wheel vibrate, and actuate the brakes on one side to help manoeuvre the vehicle back into its lane. Meanwhile, the **PRE-SAFE® system** is able to identify critical driving situations in advance and to initiate precautionary measures to protect the vehicle's occupants if an accident appears imminent. Such measures include reversible belt tensioning or automatic closing of open side windows, for example.

OTHER SAFETY AND ASSISTANCE SYSTEMS AT A GLANCE

The **Active Brake Assist** gives the driver a visual warning if the distance to the vehicle in front is too small. An audible warning sounds when a danger of collision is identified; it can also provide braking assistance in line with the situation at hand and, if the driver fails to react, initiate autonomous braking.

During long and monotonous trips, e.g. on motorways or main roads, **ATTENTION ASSIST** can detect typical signs of drowsiness or increasing inattention on the part of the driver at speeds between around 60 and 200 km/h. The driver then receives an appropriate warning and is prompted to take a break, thus enhancing road safety.

9 airbags including rear side airbags and knee airbags

AMG high-performance braking system with internally ventilated and perforated brake discs, red-painted brake calipers with "AMG" lettering.

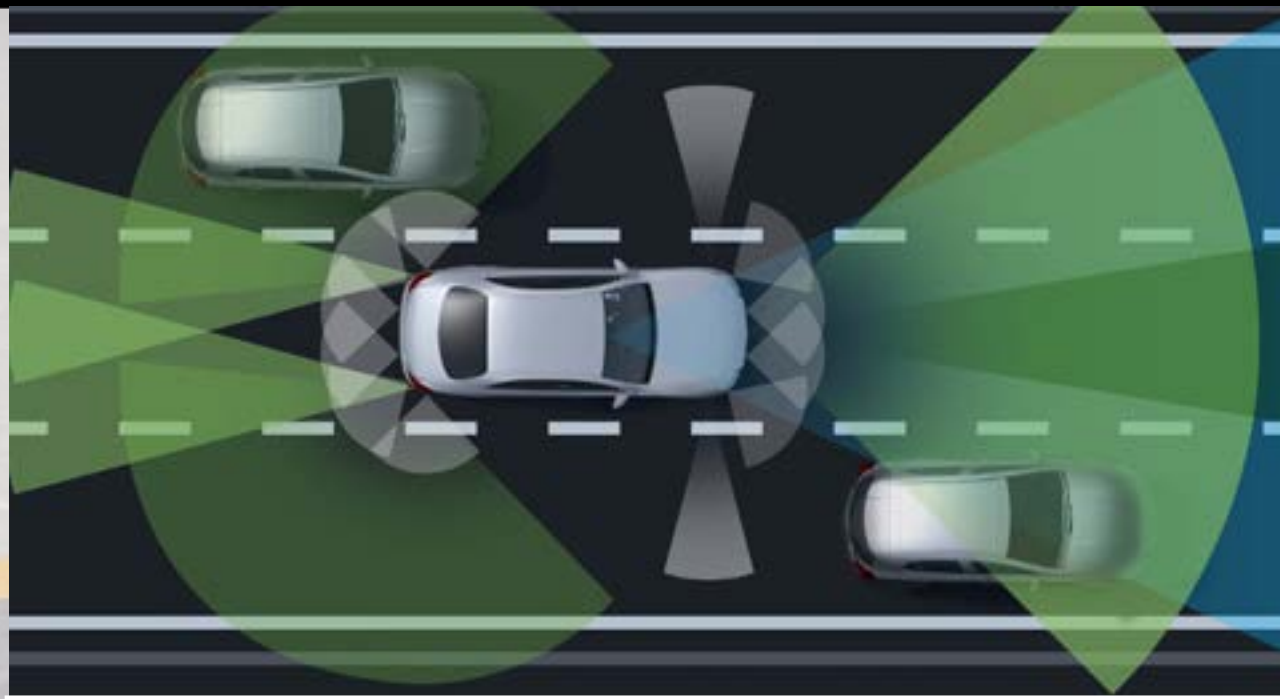

i-Size child seat attachment system in the rear.
To ensure your smaller passengers are safe when under way: the system allows the rapid and simple attachment of i-Size child seats in the rear for optimum child protection in an accident. Top Tether anchoring points offer added safety by anchoring the child seat behind the rear head restraints.

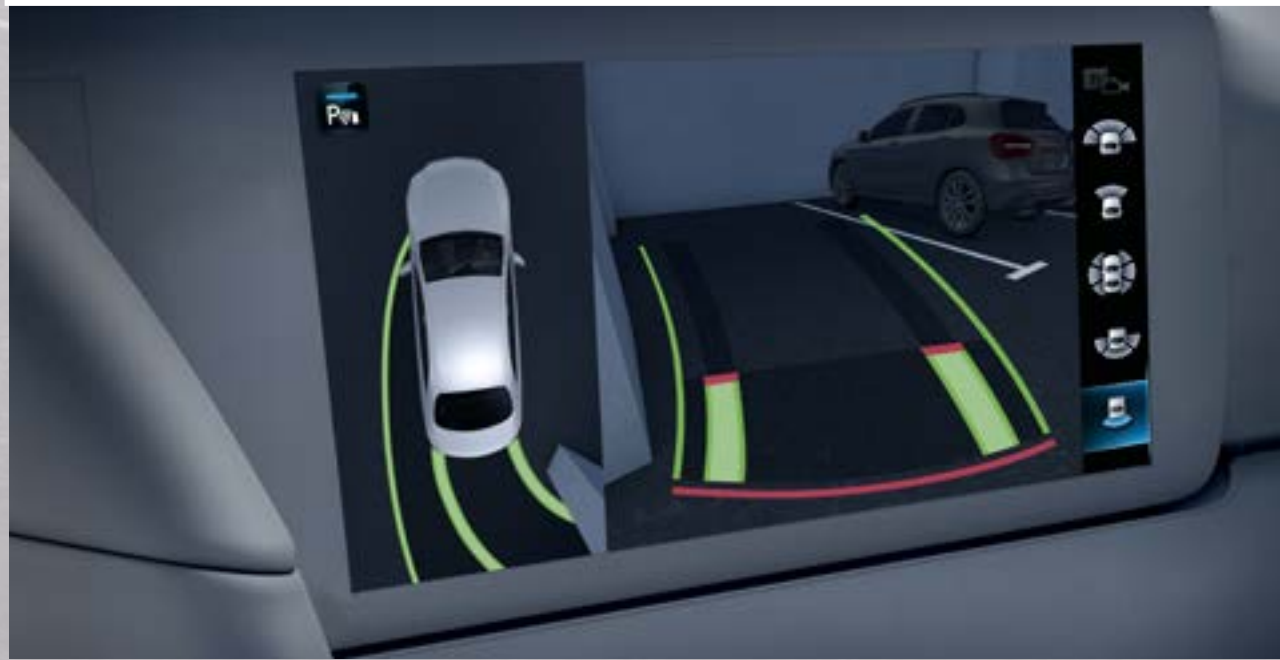

It also has the facility of **Tyre pressure monitoring system**.

Safety vests for driver and passengers:
The wagon offers fluorescent jackets with high-visibility reflective stripes for all seat passengers. Safety during breakdown activities - anywhere and everywhere.

Engineering Package

The Engineering Package bundles together useful assistance systems – for optimum safety and even more relaxed driving. The Active Distance Assist DISTRONIC provides support with maintaining a safe distance, among other things. Thanks to Blind Spot Assist and the Parking Package with 360° camera, you can also retain an overview even in unclear situations.

ASSISTANCE PACKAGE

Active Distance Assist DISTRONIC

Blind Spot Assist

PARKING PACKAGE WITH 360° CAMERA

360° camera

PARKTRONIC Parking Assist

URBAN GUARD vehicle protection Plus

The URBAN GUARD vehicle protection Plus package provides all-round monitoring. It comprises an anti-theft alarm system plus tow-away protection which is able to detect changes in position. Movement in the vehicle interior also triggers visual and audible warnings. Vehicle Theft Assistance also increases the chances of you recovering your property.

- Anti-theft alarm system
- Tow-away protection featuring visual and audible warning if the system identifies a change in position
- Alarm siren
- Interior monitoring system (triggered when there is movement in the interior)
- Vehicle Theft Assistance, free of charge for 3 years from activation
- Theft notification and parking damage detection, free of charge for 3 years following activation
- URBAN GUARD label on the front side windows

*Please read the disclaimer.

Blind Spot Assist

Blind Spot Assist takes a very close look for you in the area not covered by the outside mirror – in particular as soon as you switch on the turn signal indicator. The system is thus able to give you a visual and audible warning of impending side collisions with other road users in the blind spot.

Active Distance Assist DISTRONIC

You will be grateful for the convenience of DISTRONIC Active Distance Assist in flowing and stop-and-go traffic. The system takes the strain off you by automatically adapting your own speed to that of slower-moving vehicles in front. The desired specified distance can be set in several stages.

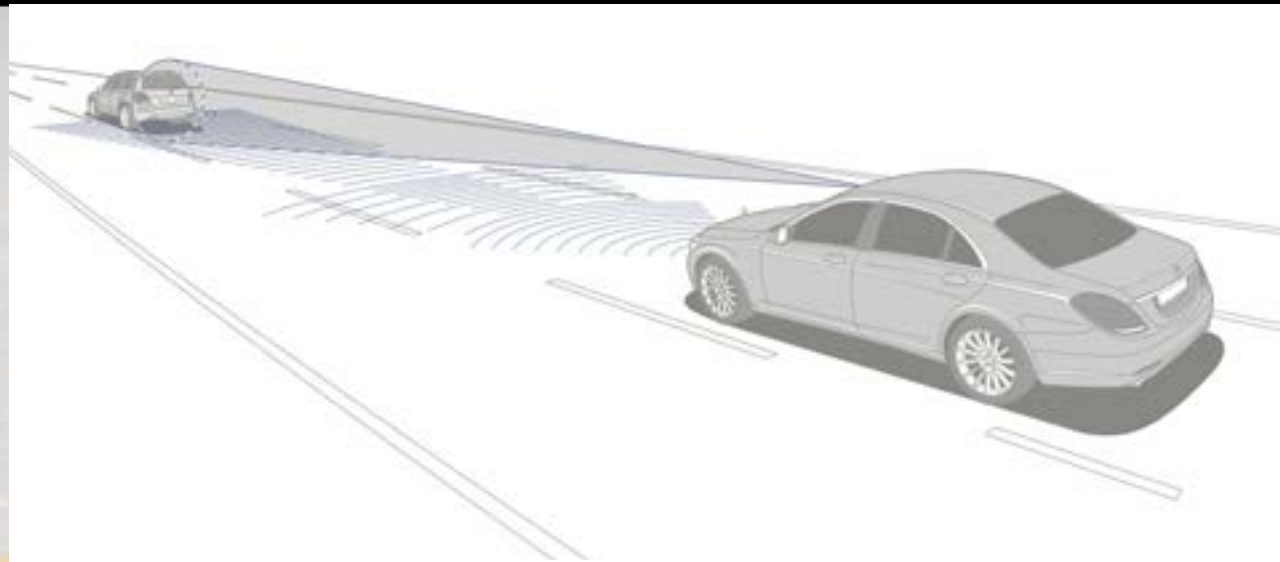

Radar sensor in the radiator grille: measures the distance to vehicles travelling in front in a longitudinal direction and their speed.

Automatically acting driver assistance system: maintains the defined desired speed and at the same time controls the specified distance you have preselected.

- When there are vehicles in front in flowing traffic: in a speed range from 0 km/h to 200 km/h
- Without any vehicles in front: in a speed range from 20 km/h to 200 km/h

Visual and audible warning when you as the driver must intervene.

A declaration of love for craftsmanship.

Anybody who has visited the city of Graz will understand our passion for craftsmanship. The place itself with its picturesque houses looks like it has been built by hand. And production of the G-Class has likewise followed this dedicated principle for more than 40 years. To this day the sheer model diversity on offer means that manual production is required. Be it the exterior or interior, many details of the new G-Class are produced lovingly and by hand. Experienced master upholsterers pay attention to every detail when making the seats. In this way, high-quality leather grades are assured the very best of attention. The upholsterers' expert eyes do not miss the slightest blemish in the leather. The result is highly exclusive collector's items fashioned by the hands of masters of their craft.

The most important detail of a G-Class is not a part at all – it is the time our team passionately devotes to its creation. Because the only way to create a vehicle which is a reliable companion in tough off-road conditions as well as in the urban jungle, which combines comfort and driving pleasure, and which fuses protection and safety in a sophisticated design is to display this immense devotion and use the finest materials. The new G-Class only leaves its birthplace after around 100 production hours – a journey already undertaken by over 300,000 vehicles.

G manufaktur customization.

The G-Class has known routes which remain hidden to others from the outset. This individuality is reflected in the G manufaktur philosophy in particular. The design gene is particularly prominent in the DNA of the G-Class. Because the new G-Class is as confidently stylish at scaling design heights as it is effortlessly superior in handling off-road terrain. Equipment variants exclusively for the new G-Class, in which everything is perfectly matched and tailored to the highest level with perfect craftsmanship and unique style.

AMG Night Package

There’s a reason why most predators come out at night. Boasting an array of black design features, such as darkened headlamps, the AMG Night package adds sporty contrasts to the vehicle’s exterior design. The large, black wheels in an exclusive design underline the sporty, expressive character and give the new Mercedes-AMG G 63 a real air of authority. And not just by night.

FEATURES AT A GLANCE

Radiator grille including louvres and surround of Mercedes star painted in obsidian black
Spare wheel ring and exterior mirror housings painted in obsidian black
Underguard painted in obsidian black
Exterior protective strip with trim insert in black with “AMG” lettering
Darkened headlamps, turn indicators and tail lights
Front and rear bumper trim painted in obsidian black
(optional) RJ6 53.3 cm (21-inch) AMG 5-twin-spoke light-alloy wheels, painted black
(optional) RG4 55.9 cm (22-inch) AMG cross-spoke forged wheels painted Matt Black, rim flange with high-sheen finish

designo AMG Equipments

AMG Performance steering wheel in carbon-fibre design / DINAMICA microfibre

On this AMG steering wheel, a striking carbon-fibre design is combined with DINAMICA microfibre providing good grip – a visual and tactile highlight. The hallmark AMG flattened shape has been adopted from motorsport and underlines the sportiness of the cockpit. Ergonomically positioned Touch Control buttons ensure intuitive user-friendliness and are conducive to focussed driving.

- Sporty 3-spoke design with flat bottom
- Combined version in carbon-fibre design and black DINAMICA microfibre in the grip area
- With 12 o'clock marking and topstitching
- Steering wheel spokes and bezel in silver chrome with "AMG" lettering
- Silver-coloured aluminium shift paddles: allow manual gear changes and support a sporty driving style
- Touch Control buttons
  left: Control of the instrument cluster, cruise control and limiter, plus Active Distance Assist DISTRONIC
  right: Control of central multimedia system functions (e.g. audio volume and title selection, telephony and navigation)

designo AMG Equipments

AMG steering-wheel buttons.

With the AMG steering wheel buttons you can make your steering wheel radically sporty: they allow fast, purposeful control of specific dynamic driving functions. For a focused, concentrated and performance-oriented driving sensation – and an authentic racing car atmosphere in the cockpit.
The individual steering wheel buttons are designed as modern, mini displays. Pictograms on the buttons visualise the AMG-specific function which can be accessed in each case.

AMG FUNCTIONS CAN BE FREELY ASSIGNED, FOR EXAMPLE:

- Direct selection of manual mode
- Adjustment of the adaptive suspension
- Activation/deactivation of the Electronic Stability Program (ESP®)
- Control of the integrated dynamic control AMG DYNAMICS
- Selection of AMG DYNAMIC SELECT drive modes and display of currently selected mode
- Switching of AMG Performance exhaust system

Rubber mat set

With the rubber floor mat set you can protect the interior of your vehicle against dirt and damage. The floor mats and tailor-made mat for the luggage compartment feature a particularly hard-wearing finish. They can be removed easily and cleaned in no time. In the first seat row they are attached securely to the vehicle floor by means of snap fastener.

- 4 rubber floor mats
- Rubber mat for cargo area

G manufaktur cherry wood luggage compartment floor

The high-quality, handcrafted wooden load compartment floor is a particular design highlight which enhances your G-Class. It is elegantly inlaid with dark smoked oak, which forms an exciting contrast to the light cherry wood. Thanks to the four tie-down eyes and aluminium rails with rubber inserts you can stow even heavy items of luggage without them moving.

- Cherry wood load compartment floor
- Inlaid with dark smoked oak
- 4 aluminium rails with anti-slip rubber inserts
- 4 lashing eyes
- Special oil for maintaining the wood

designo AMG Equipments

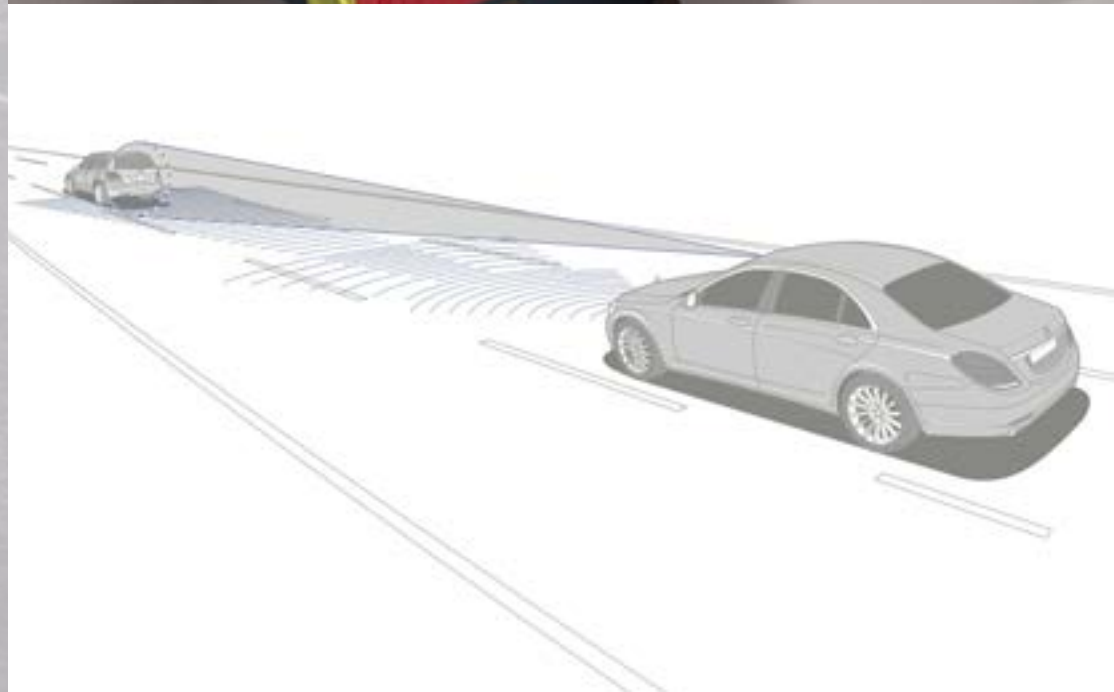

Fire extinguisher

A fire extinguisher on-board ensures that when your off-road adventure takes a risky turn, you're always ready to keep yourself and your fellow travellers safe.

Driving Assistance package – intelligent assistants to ensure safety

The Driving Assistance package includes Active Distance Assist DISTRONIC as well as Blind Spot Assist. These take the strain off the driver both in the city and in rural traffic, and help to ensure greater safety when driving by monitoring the vehicle's "blind spot". Active Distance Assist DISTRONIC increases driving comfort in tailbacks on motorways, highways and stop-and-go traffic and is active up to a speed of 200 km/h. Blind Spot Assist notifies the driver of vehicles in the "blind spot" by lighting up a yellow or red triangle in the respective exterior mirror and emitting a warning tone. The system is available in the speed range from 30 km/h to 250 km/h and is activated via the instrument cluster.

My Mercedes. My Service.

You enjoy life. We'll take care of your Mercedes.

The best or nothing! This statement conveys how Mercedes-Benz aspires to develop and build highly desirable, top-class vehicles. The same passion, pledge and commitment apply to the Mercedes-Benz Service too. The bouquet of world-class After-Sales products will not only attend to every need of your Star but will also redefine the concept of ownership experience with a focus on providing end-to-end customer delight. After all, you Star deserves nothing less than the best.

STAR EASE

Delivering the best-in-class value

Servicing your Star does not get any better than this. With the STAR Ease Maintenance Packages, pay a defined cost of maintenance based on the model, contract period and mileage and say goodbye to spending on service every time. Plus, enjoy exclusive features like priority handling, shorter waiting time and quicker processes.

Advance Assurance Program

Extending your warranty coverage

With Advance Assurance Program, experience complete peace of mind. While this Extended Warranty Program kicks in the moment your standard 3 years warranty comes to an end, it can be extended further up to 6 years at a nominal price. Also, it comes with a bouquet of privileges for a worry-free time with your Star.

MOBILO

Providing you 24x7 mobility support

Your vehicle comes with Mobilo which provides round-the-clock on-road assistance service. Mobilo comes as a standard for 3 years and can be extended further up to 8 years at a nominal cost. This service offers privileges like vehicle towing facility, replacement vehicle, hotel accommodation, just to name a few.
