The new Vito.
Success stands out.

Whether you’re running an established business or laying the foundations for success, the Vito is robust, and thanks to its flexibility, prepared for the demands of your daily business.

Revolutionary front interior.

A highlight of the redesigned instrument panel is the standard MBUX multimedia system of the latest generation NTG7 with a central 10.25-inch touch display, which is available for the first time in the Vito.

The new Vito Panel Van. Engineered to deliver.

Additionally, with a vehicle height under two meters, the Vito Panel Van can easily navigate urban environments and parking structures, making it a versatile and practical choice for your business.

Keeps your business running smoothly.

The Vito Panel Van is designed to elevate your daily work routine with comprehensive features. Equipped with the powerful and efficient OM654 engine, it offers a spacious load compartment volume of up to 6.6 m³, making it perfect for transporting large items. The rear-wheel drive train ensures superior handling and stability, while the optional best-in-class 9G-TRONIC transmission provides smooth and responsive gear changes.

Robust Cargo Cabin

The durable floor can support heavy loads, protect the cargo area from damage, and provide slip resistance. It is also easy to clean and enhances thermal and acoustic insulation.

Automatic Driving Lights

The automatic driving lights function switches the driving lights on or off, depending on light conditions. Standard on all Vito variants.

Electric Parking Brake

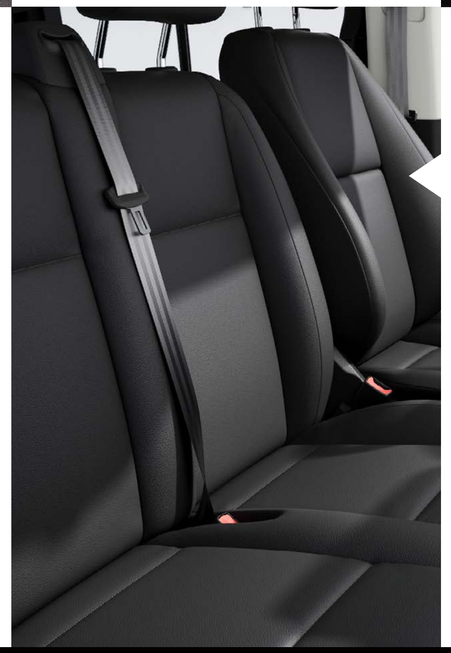

One touch of a button is all it takes to apply the electric parking brake and in order to release it, it is only necessary to pull again. Available with automatic transmission.

Lumbar Support

The front seat lumbar support adjusts for ergonomic comfort with pneumatic air bladders. A 4-way switch controls bladder height and curvature on both the driver's and co-driver's seats. Standard on all Vito PRO models.

3-Seater Option

Thanks to the optional 2-seater front bench seat, there is added accommodation in the cockpit: an additional seat with a three-point seat belt and height-adjustable headrest. Optional on Panel Van PRO.

Comfortable Trim

The black leather makes the interior comfortable and impresses with its low-maintenance surface. Standard application on all Vito variants.

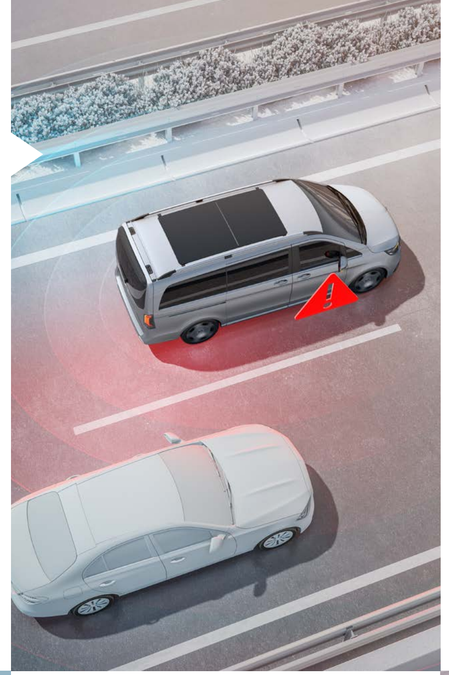

Cruise-Control System

The cruise-control system with Limiter maintains a pre-selected speed and thereby makes driving more relaxed and more economical – especially on long distances. Standard on all Vito variants

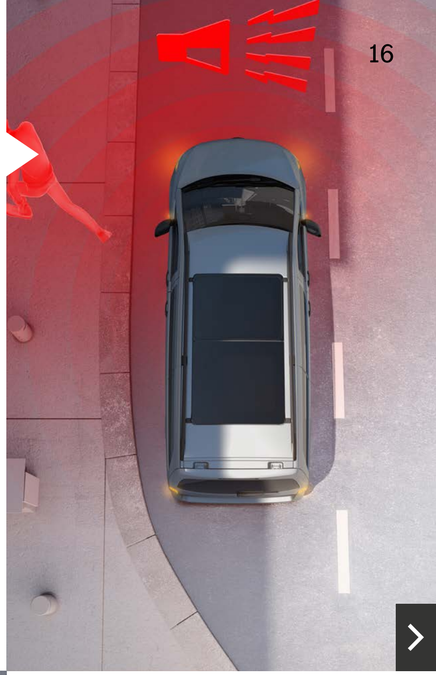

Blind Spot Assist

Blind Spot Assist with Rear Cross Traffic Alert helps prevent accidents with visual and acoustic warnings when changing lanes or reversing. A red triangle in the mirror warns of vehicles in the blind spot. Optional on all Vito variants.

Anti-Theft Protection Package

URBAN GUARD vehicle protection enhances security with various features, providing visual and audible warnings if a break-in or theft is detected. Standard on Mixto PRO and Tourer PRO models.

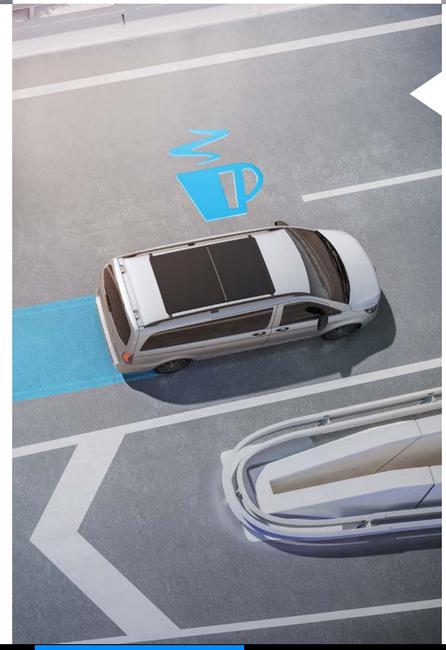

9G-TRONIC Transmission

The 9G-TRONIC automatic transmission features nine gears to maintain low engine speed across all driving conditions. The transmission's over-drive characteristics help reduce engine speed and fuel consumption during real-life operations and at high speeds. Standard on Mixto PRO and all Tourer variants.

Emergency Call System

The Mercedes-Benz emergency call system can save crucial time in emergencies by automatically or manually initiating a call for help, speeding up response times after an accident.

ATTENTION ASSIST

The ATTENTION ASSIST system helps prevent drowsiness by detecting signs of fatigue and attention lapses. It provides visual and audible warnings, suggesting breaks, especially useful on long journeys or night drives. Standard on all Vito variants.
